		tudent tested positive	on a rapid antigen tes	t or a home-
based self-testing l		lah hasad DCD tast salast	"N-"	No _
 If they have since tested negative on a lab-based PCR test, select "No". 4. Has the child/student been notified as a close contact of someone with COVID-19 or been 				
told to stay home and self-isolate?				
• If the child/student is fully vaccinated* or has tested positive for COVID-19 in the last 90 days and been cleared or public health has said the child/student does not have to self-isolate, select "No".				
5. In the last 14 days, has the child/student travelled outside of Canada AND been advised to quarantine per the <u>federal quarantine requirements</u> ?				
If "YES" to questions 2,3,4	or 5:	Stay home & self-isolate	Follow publ health advio	
* Fully vaccinated means 14 days or more after getting a second dose of a two dose COVID-19 vaccine series or one dose of a single dose series.				

**Anyone who is sick or has any symptoms of illness should stay home and seek assessment from their health

care provider if needed.

MY CHILD/STUDENT HAS 1 OR MORE SYMPTOMS OF COVID-19

THE CHILD/STUDENT SHOULD STAY HOME, SELF-ISOLATE & GET TESTED.

Notify the child care/school that they have symptoms.

WHAT WAS THE RESULT OF THE COVID-19 TEST?

POSITIVE

NEGATIVE

NOT TESTED

- Let the child care/school know that they tested positive for COVID-19.
- The child/student must stay home & self-isolate for 10 days from the day their symptoms started. They can return on day 11, even if someone else at home develops symptoms.
- Household members & close contacts who are not fully vaccinated with a COVID-19 vaccine* must self-isolate for at least 10 days and should get tested.
- Toronto Public Health will contact you to do an investigation & will provide further instructions.

Is the child/student a close contact of someone who tested positive for COVID-19 in the last 10 days?

- No They may return 24 hours after their symptoms have started improving (48 hours for nausea, vomiting or diarrhea).
- Yes If the child/student is not fully vaccinated*: they need to self-isolate for 10 days from last exposure to the person who was positive.
- Yes If the child/student is fully vaccinated*: they may return 24 hours after their symptoms have started improving (48 hours for nausea, vomiting or diarrhea).
- Yes If the child/student has tested positive for COVID-19 in the last 90 days and was cleared: they may return 24 hours after their symptoms have started improving (48 hours for nausea, vomiting or diarrhea).
- Yes If the child/student only received an exposure notification through the COVID Alert app: they can return 24 hours after their symptoms have started improving (48 hours if nausea, vomiting or diarrhea).

Siblings and adults in the home who attend a child care/school setting can return right away as long as there are no other household members with symptoms.

The child/student must stay home & self-isolate for 10 days from the day symptoms started. On day 11, the child/student can return to the child care/school setting if their symptoms are

improving.

- Anyone in the household who is not fully vaccinated* or has not tested positive for COVID-19 in the last 90 days and was cleared, must self-isolate until the child/student gets a negative COVID-19 test or 10 days have passed.
- If a health care provider has diagnosed a condition that isn't related to COVID-19, the child/student can return 24 hours after their symptoms improve (48 hours for nausea, vomiting or diarrhea). Household members do not need to stay home.

If the child/student travelled outside of Canada in the last 14 days:

- The child/student must follow federal guidelines for quarantine and testing after returning from international travel.
- If the child/student is fully vaccinated they may be exempt from federal quarantine. If the child/student is not fully vaccinated, they are not to attend school/child care for 14 days, even if they traveled with a vaccinated companion.
- · Follow federal requirements for travellers.

*Fully vaccinated means 14 days or more after getting a second dose of a two dose COVID-19 vaccine series or one dose of a single dose series.
